Установите соответствие между текстами и рубриками, выбрав рубрику из выпадающего списка. Используйте каждую рубрику только один раз. В задании одна рубрика лишняя.

A) Рубрика

Coffee drinking was first mentioned in the 15th century. Scientists believe it was at that time when people started making coffee the way we make it now. It was probably in Yemen where people started roasting and brewing coffee beans but there are other theories as well. In the 16th century coffee was brought to Turkey and it was exported to Western Europe from there.

B) Рубрика

There are several ways of growing coffee. The traditional method is to place 20 seeds in each hole at the beginning of the rainy season. This method loses about 50% of the seeds because half of them fail to grow into coffee plants. A more effective process of growing coffee, used in Brazil, is to raise coffee plants in special greenhouses and then plant them outside at six to twelve months.

C) Рубрика

Scientists think that shade-grown coffee is better for the environment than full-sun systems because the shade is needed by a lot of living organisms like birds and insects. Still, there are a lot of environmental problems connected with growing coffee. One of them is the amount of water necessary for it because coffee is mainly grown in the countries where there's water shortage.

D) Рубрика

Coffee export can bring a lot of money for the country which does it. In 2016, world production of green coffee beans was 9.2 million tons, led by Brazil. This country alone produces 33% of the total amount of coffee. Vietnam, Colombia and Indonesia were other major producers. These countries greatly depend on coffee export in their economic systems.

E) Рубрика

Once made, coffee may be drunk in a variety of ways. You may make strong or weak coffee. Coffee with milk is called white coffee whereas if you don't add milk to your coffee, you drink it black. Some people like to have their coffee hot, but others prefer cold coffee. You may also make flavoured coffee. In coffee houses you may get a cappuccino, a latte or an espresso.

Прочитайте текст и вставьте вместо каждого пропуска подходящее слово, выбрав его из выпадающего списка. *Каждое из этих слов может быть использовано только один раз.* Два слова в списке лишние.

Happy childhood

Maria Tallchief is one of the greatest dancers in the world who won many honours. Maria was born in Oklahoma in the family of a Native Indian. Maria up on an Indian Reservation far from the big cities. She really playing outdoors with her sister. She also liked playing the piano and practiced dancing.

When Maria turned eight years old, her family to move to Los Angeles. She was when she first saw the Pacific Ocean. Soon she began taking dance lessons at the School of Ballet. Maria's days were very busy. She up early each morning and practiced the piano for an hour before school. Then she would practice another hour of piano after school and attend ballet lessons. It sounds like a lot of work, but it was very for Maria, and she was happy.

Imagine that you are preparing a project with your friend. You have found some interesting material for the presentation and you want to read this text to your friend. You have 2 minutes to read the text silently, then be ready to read it out aloud. You will not have more than 2 minutes to read it.

We do not like having to go to hospitals, but sometimes we have to. We are afraid of medical tests and examinations because we do not know what doctors know. For example, if you have ever had a part of your body X-rayed, you have seen those black-and-white prints. You look at them and you understand nothing. Only a specialist can understand if there is something wrong there. However, the situation may soon change. Modern scientists have announced the invention of a new X-ray machine. It can produce 3D colour pictures. They look very realistic and can give you an idea of what is going on inside a human body. The images are highly detailed and super accurate. They will certainly make the job of doctors much easier as it will not be hard to see where the problem is. This is a true revolution in the medical world.

These are photos from your photo album. Choose one photo to describe to your friend.

Photo 1

Photo 2

Photo 3

You will have to start speaking in 2 minutes and will speak for not more than 2 minutes (12–15 sentences). In your talk remember to speak about:

- where and when the photo was taken
- what/who is in the photo
- what is happening
- why you keep the photo in your album
- why you decided to show the picture to your friend

You have to talk continuously, starting with:

“I’ve chosen photo number... ”
